

A030

Material

Rod: 8mm dia. zinc plated steel.
Rollers: polyamide, Pa6 GFR 30.

Technical Notes

For use with our quarter turn fasteners, making a fully comprehensive latching system.
Height between base of rod and inside of door when using rod guides is 24 mm.

Tips

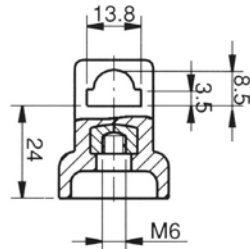

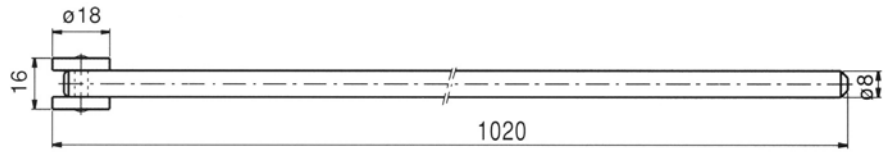

Rods can be cut to length to suit your application. Rod adaptor fits to any length of rod.

Important Notes

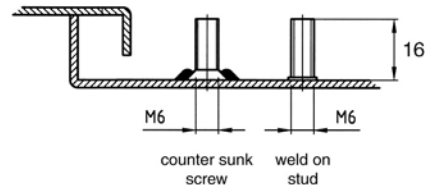

Rod guides mounted either via an M6 x 16 counter sunk screw or M6 x 16 weld on stud.
