

Mini Slide Carriage

Wixroyd

P030

Material
Body - special polyethylene.
Insert nut - AISI 304 stainless steel.

Technical Notes
Compact design and suitable for a wide variety of application. Provides outstanding performance with lighter movement than ball-bearing types.
Material values:
- Coefficient of friction μ_s 0.15
- Coefficient of dynamic friction μ_d 0.10
- Limited PV value 3Mpa.m/min
 $PV = P(\text{pressure Mpa}) \times V$
(slidespeed m/min)
 $p = 0.74 \text{ Mpa}$
 $V = 12 \text{ m/min}$

Order No.	Description
