VICE CLAMPING

Material

Steel, hardened (52-54 HRC).

Technical Notes

The Versagrip jaws increase the functionality of your 100 and 150mm vices. This is a simple bolt-on system that allows you to perform aggressive machining operations

whilst clamping on as little as 1,5mm for irregular shaped parts.

Ideal for small batch sizes or when building a fixture is not economical.

Tips

Has penetrating teeth designed to bite into your workpiece to prevent lateral and hori-

zontal movement. They will hold flame cut parts, castings and even parts with negative draft.

Important Notes

Set includes a pair of vice jaws, and four Versagrip clamps, part no. 12036.W0175.
